Date: July 16, 2024
Subject: Fiscal Year 2024-25 Proposed Budget and Tax Rate

It is with pleasure and honor that I present the proposed fiscal year 2024-2025 budget and tax rate. This proposed budget takes into consideration many factors, most importantly though, the will of the people as expressed through their elected officials. This budget document is the product of many hours of research and deliberation as performed by the dedicated members of the Budget Committee. Furthermore, it is a balanced proposal between our anticipated revenues and expenses and is a reflection of our collective goals and desired progress.

The proposed tax rate, **\$0.460000 per \$100** of appraised valuation, is a continuation of the tax rate from the previous year. While the tax rate will remain unchanged, it is important to note that between certified tax appraisals rising across the county, the addition of added value from new improvements, and previously untaxed properties, the city will collect an additional \$29,580 in revenue.

While this budget reflects the essential day-to-day operations of our city and water system, I would like to point out some of the focus areas that will be prioritized over the coming year:

- **Water System Improvements** – Our Water system and respective fund continue to make up a large portion of our overall operations. As of the most recent public water use survey, an estimated 5,802 people, across 45 square miles and three counties, are currently being provided with a safe supply of water to meet their daily demands.

This year's budget will utilize general revenues, reserves, and grant funding to continue to target portions of our water system that have been identified in past water system analyses as being in need of repair or upgrade, including the addition of a new groundwater well.

Also integrated in this year's budget is a greater investment in our maintenance of vital water distribution equipment to help counter challenges we have been facing from persistent electrical failures. This will include a backup generator to provide power in the event of an emergency.

- **Drainage and Stormwater Improvements** – This year we received far more than our fair of Spring rains. While our local water reservoirs desperately needed this influx, the amount of rain received over a short period of time showcased areas of our drainage system in need of repair and/or upgrade. This budget includes funding for the replacement of culverts throughout key areas of our City.
- **Sewer System** – The long-anticipated sewer system project has been 'given the green light' and is currently in the loan closing phase. Therefore, we must include the expected costs of implementing this vital public works project to include the cost of initial construction as well as the first years' operating expenses.
- **Street Repairs** – Funding dedicated to street maintenance has risen dramatically over the past two years and the Budget Committee Members wanted to ensure this trend continues. This budget will include money for more sealing of streets overhauled in 2023 and 2024, the overhaul of another slate of roadways, and general repairs.

Also important to note, the City of Bruceville-Eddy purchased a self-contained street patching machine in FY 2023-2024. By utilizing this essential piece of equipment, we can address needs across our community with greater efficiency.

Furthermore, the Citizens of Bruceville-Eddy approved a ballot measure in November of 2023 that dedicated a new sales tax directly to the maintenance of existing streets. This tax went into effect in April of 2024 and will continue for a period of four years. As this money becomes available, we will have an even greater ability to finance needed repairs.

Lastly, it should be mentioned that a significant portion of the sewer system project will go towards full street repairs after collection lines have been installed.

Bottomline, your City Council is prioritizing street maintenance more than ever before and the fruits of these investments will continue to compound and be seen where it matters the most, on our roads.

- **Employee Compensation** – Arguably the most important cost of any thriving organization is that of employee compensation and benefits. This budget will provide most employees that have completed one year of service with a 3.2% cost-of-living adjustment (COLA) while allocating a base pay increase for our police officers.

For the first time ever, this budget will also fund a non-retroactive, repeating COLA for retirees through our Texas Municipal Retirement System plan.

- **Animal Services** – To many, it often comes as a surprise just how costly it is to provide humane care to animals in today's day and age.

For many years, the City of Bruceville-Eddy has operated with little to no funding for an active animal control operation. We have been working for the past two years to find a cost-efficient solution to animal sheltering operations. Unfortunately, we have been less than successful. This year's budget includes funding towards a solution to this end as well as essential animal needs as they may arise.

Bruceville-Eddy's financial health will maintain its tradition of fiscal sustainability and is poised to continue "rising into the future".

It is my honor to serve alongside you and the outstanding staff members of the City of Bruceville-Eddy. I look forward to discussing this budget with you at our upcoming meetings, and even further, to the implementation of the priorities expressed herein.

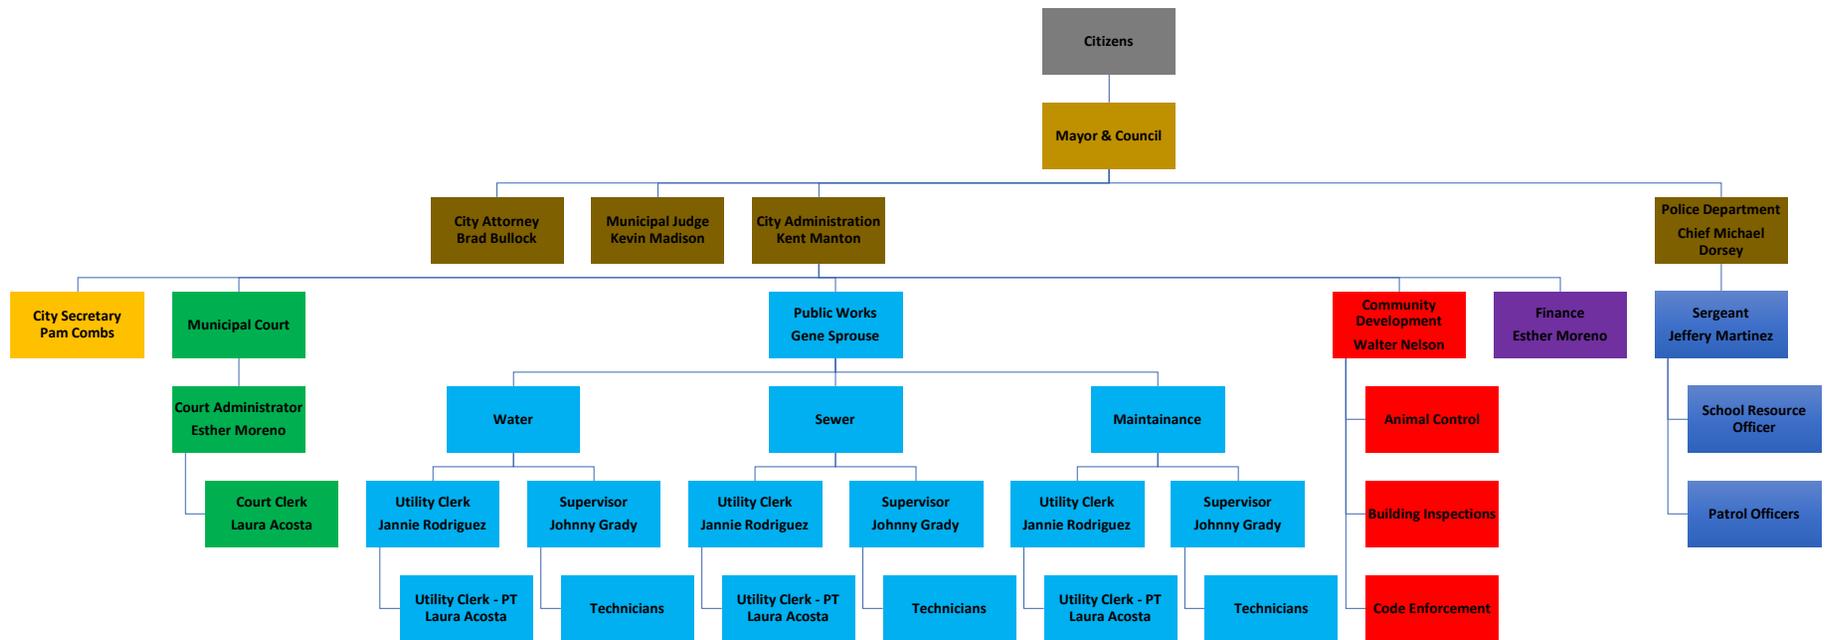

Respectfully submitted,

Taxing Unit's Website Address

GENERAL INFORMATION: Tax Code Section 26.04(c) requires an officer or employee designated by the governing body to calculate the no-new-revenue (NNR) tax rate and voter-approval tax rate for the taxing unit. These tax rates are expressed in dollars per \$100 of taxable value calculated. The calculation process starts after the chief appraiser delivers to the taxing unit the certified appraisal roll and the estimated values of properties under protest. The designated officer or employee shall certify that the officer or employee has accurately calculated the tax rates and used values shown for the certified appraisal roll or certified estimate. The officer or employee submits the rates to the governing body by Aug. 7 or as soon thereafter as practicable.

School districts do not use this form, but instead use Comptroller Form 50-859 *Tax Rate Calculation Worksheet, School District without Chapter 313 Agreements* or Comptroller Form 50-884 *Tax Rate Calculation Worksheet, School District with Chapter 313 Agreements*.

Water districts as defined under Water Code Section 49.001(1) do not use this form, but instead use Comptroller Form 50-858 *Water District Voter-Approval Tax Rate Worksheet for Low Tax Rate and Developing Districts* or Comptroller Form 50-860 *Developed Water District Voter-Approval Tax Rate Worksheet*.

The Comptroller's office provides this worksheet to assist taxing units in determining tax rates. The information provided in this worksheet is offered as technical assistance and not legal advice. Taxing units should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

SECTION 1: No-New-Revenue Tax Rate

The NNR tax rate enables the public to evaluate the relationship between taxes for the prior year and for the current year based on a tax rate that would produce the same amount of taxes (no new taxes) if applied to the same properties that are taxed in both years. When appraisal values increase, the NNR tax rate should decrease.

The NNR tax rate for a county is the sum of the NNR tax rates calculated for each type of tax the county levies.

While uncommon, it is possible for a taxing unit to provide an exemption for only maintenance and operations taxes. In this case, the taxing unit will need to calculate the NNR tax rate separately for the maintenance and operations tax and the debt tax, then add the two components together.

SECTION 2: Voter-Approval Tax Rate

The voter-approval tax rate is the highest tax rate that a taxing unit may adopt without holding an election to seek voter approval of the rate. The voter-approval tax rate is split into two separate rates:

- Maintenance and Operations (M&O) Tax Rate:** The M&O portion is the tax rate that is needed to raise the same amount of taxes that the taxing unit levied in the prior year plus the applicable percentage allowed by law. This rate accounts for such things as salaries, utilities and day-to-day operations.
- Debt Rate:** The debt rate includes the debt service necessary to pay the taxing unit's debt payments in the coming year. This rate accounts for principal and interest on bonds and other debt secured by property tax revenue.

The voter-approval tax rate for a county is the sum of the voter-approval tax rates calculated for each type of tax the county levies. In most cases the voter-approval tax rate exceeds the no-new-revenue tax rate, but occasionally decreases in a taxing unit's debt service will cause the NNR tax rate to be higher than the voter-approval tax rate.

SECTION 4: Voter-Approval Tax Rate Adjustment for Pollution Control

A taxing unit may raise its rate for M&O funds used to pay for a facility, device or method for the control of air, water or land pollution. This includes any land, structure, building, installation, excavation, machinery, equipment or device that is used, constructed, acquired or installed wholly or partly to meet or exceed pollution control requirements. The taxing unit's expenses are those necessary to meet the requirements of a permit issued by the Texas Commission on Environmental Quality (TCEQ). The taxing unit must provide the tax assessor with a copy of the TCEQ letter of determination that states the portion of the cost of the installation for pollution control.

This section should only be completed by a taxing unit that uses M&O funds to pay for a facility, device or method for the control of air, water or land pollution.

SECTION 5: Voter-Approval Tax Rate Adjustment for Unused Increment Rate

The unused increment rate is the rate equal to the sum of the prior 3 years Foregone Revenue Amounts divided by the current taxable value.³⁹ The Foregone Revenue Amount for each year is equal to that year’s adopted tax rate subtracted from that year’s voter-approval tax rate adjusted to remove the unused increment rate multiplied by that year’s current total value.⁴⁰

The difference between the adopted tax rate and adjusted voter-approval tax rate is considered zero in the following scenarios:

- a tax year in which a taxing unit affected by a disaster declaration calculates the tax rate under Tax Code Section 26.042;⁴¹
- a tax year in which the municipality is a defunding municipality, as defined by Tax Code Section 26.0501(a);⁴² or
- after Jan. 1, 2022, a tax year in which the comptroller determines that the county implemented a budget reduction or reallocation described by Local Government Code Section 120.002(a) without the required voter approval.⁴³

This section should only be completed by a taxing unit that does not meet the definition of a special taxing unit.⁴⁴

SECTION 6: De Minimis Rate

The de minimis rate is the rate equal to the sum of the no-new-revenue maintenance and operations rate, the rate that will raise \$500,000, and the current debt rate for a taxing unit.⁴⁴ This section should only be completed by a taxing unit that is a municipality of less than 30,000 or a taxing unit that does not meet the definition of a special taxing unit.⁴⁵

SECTION 7: Voter-Approval Tax Rate Adjustment for Emergency Revenue Rate

In the tax year after the end of the disaster calculation time period detailed in Tax Code Section 26.042(a), a taxing unit that calculated its voter-approval tax rate in the manner provided for a special taxing unit due to a disaster must calculate its emergency revenue rate and reduce its voter-approval tax rate for that year.⁴⁸

Similarly, if a taxing unit adopted a tax rate that exceeded its voter-approval tax rate, calculated normally, without holding an election to respond to a disaster, as allowed by Tax Code Section 26.042(d), in the prior year, it must also reduce its voter-approval tax rate for the current tax year.⁴⁹

This section will apply to a taxing unit other than a special taxing unit that:

- directed the designated officer or employee to calculate the voter-approval tax rate of the taxing unit in the manner provided for a special taxing unit in the prior year; and
- the current year is the first tax year in which the total taxable value of property taxable by the taxing unit as shown on the appraisal roll for the taxing unit submitted by the assessor for the taxing unit to the governing body exceeds the total taxable value of property taxable by the taxing unit on January 1 of the tax year in which the disaster occurred or the disaster occurred four years ago. This section will apply to a taxing unit in a disaster area that adopted a tax rate greater than its voter-approval tax rate without holding an election in the prior year.

Note: This section does not apply if a taxing unit is continuing to calculate its voter-approval tax rate in the manner provided for a special taxing unit because it is still within the disaster calculation time period detailed in Tax Code Section 26.042(a) because it has not met the conditions in Tax Code Section 26.042(a)(1) or (2).
