INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and
Members of the City Council
City of Bruceville-Eddy, Texas

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and aggregate remaining fund information of the City of Bruceville-Eddy, Texas ("the City"), as of and for the year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and aggregate remaining fund information of the City as of September 30, 2025, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

**INDEPENDENT AUDITOR'S REPORT
(CONTINUED)**

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

**INDEPENDENT AUDITOR'S REPORT
(CONTINUED)**

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, pension information, other post-employment benefit information and the budgetary comparison information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

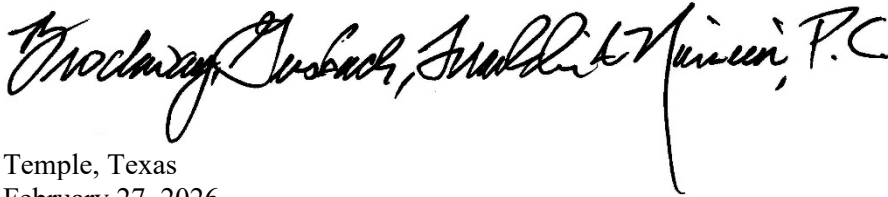

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying individual fund financial statements and schedule of expenditures of federal awards, as required by Title 2 U. S. *Code of federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual fund financial statements and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**INDEPENDENT AUDITOR'S REPORT
(CONTINUED)**

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated February 27, 2026, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City's internal control over financial reporting and compliance.

A handwritten signature in black ink that reads "Brockway Busch, Matthew Mincer, P.C." The signature is written in a cursive style and is positioned above the typed text.

MANAGEMENT'S DISCUSSION AND ANALYSIS

In this section of the Annual Financial Report, we, the managers of the City of Bruceville-Eddy, Texas ("the City"), discuss and analyze the City's financial performance for the fiscal year ended September 30, 2025. Please read it in conjunction with the Independent Auditor's Report on pages 1 through 4, and the City's Basic Financial Statements, which begin on page 14.

FINANCIAL HIGHLIGHTS

- The City's net position increased by \$ 1,076,806 as a result of this year's operations.
- The General Fund ended the year with a fund balance of \$ 1,960,733.
- During the year, the City had governmental expenses that were \$ 1,278,577 more than the \$ 1,352,198 generated in tax and other revenues for governmental programs.
- The total cost of all the City's programs was \$ 3,535,989. Of this amount, \$ 2,999,159 was directly attributed to public safety (Police Department) and water and sewer services. The remainder of the cost was mainly for general government and street repair.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Position and the Statement of Activities (on pages 14 through 17). These provide information about the activities of the City as a whole and present a longer-term view of the City's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

The government-wide financial statements include not only the City itself (known as the primary government), but also a legally separate economic development corporation for which the City is financially accountable. Financial information for this component unit is reported separately from the financial information presented for the primary government itself.

Fund financial statements (starting on page 18) report the City's operations in more detail than the government-wide statements by providing information about the City's most significant funds. For governmental funds, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources and supply the basis for tax levies and the appropriations budget. Proprietary fund statements provide the same type of information as the government-wide financial statements, only in more detail.

The notes to financial statements (starting on page 31) provide narrative explanations or additional data needed for full disclosure in the government-wide statements and the fund financial statements.

Reporting the City as a Whole

The Statement of Net Position and the Statement of Activities

The analysis of the City's overall financial condition and operations begins on page 14. Its primary purpose is to show whether the City is better or worse off as a result of the year's activities. The Statement of Net Position includes all the City's assets and liabilities at the end of the year while the Statement of Activities includes all the revenues and expenses generated by the City's operations during the year.

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal years (e.g., uncollected taxes). Both the statement of net position and the statement of activities are prepared utilizing the accrual basis of accounting.

These two statements report the City's net position and the changes in them. The City's net position (the difference between assets and liabilities) provides one measure of the City's financial health, or financial position. Over time, increases or decreases in the City's net position are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of the City, however, you should consider nonfinancial factors as well, such as changes in the property tax base and the condition of the City's facilities.

In the Statement of Net Position and the Statement of Activities, the City is divided into two kinds of activities.

Governmental activities – Most of the City's basic services are reported here, including the public safety, streets, and general government. Property taxes, fines and sales taxes finance most of these activities.

Business-type activities - The City charges a fee to customers to help cover all or most of the cost of certain services it provides. The City's water and sewer system activities are reported here.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
CITY OF BRUCEVILLE-EDDY, TEXAS
SEPTEMBER 30, 2025**

Reporting the City's Most Significant Funds

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds - not the City as a whole. Some funds are required to be established by state law and by bond covenants. The City's two kinds of funds - governmental and proprietary - utilize different accounting approaches.

Governmental fund – The majority of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method identified as the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. By comparing information presented for the governmental fund with similar information presented for governmental activities in the government-wide financial statements, readers may better understand the long-term impact of the government's near-term financing decisions. The relationships or differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental fund statements are detailed in a reconciliation following the fund financial statements.

Proprietary fund - The City charges customers for the services it provides, whether to outside customers or to other units within the City. These services are generally reported in the proprietary fund. The proprietary fund is reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities. In fact, the City's enterprise funds are identical to the business-type activities that are reported in the government-wide statements, but provide more detail and additional information such as cash flows for the proprietary fund.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The City's combined net position was \$ 11,811,328 as of September 30, 2025. Analyzing the net position and net expenses of governmental and business-type activities separately, the business-type activities net position was \$ 8,580,349 and the governmental activities net position was \$ 3,230,979.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
CITY OF BRUCEVILLE-EDDY, TEXAS
SEPTEMBER 30, 2025**

The following condensed financial statements focus on the Net Position (Table I) and Change in Net Position (Table II) of general revenues and significant expenses of the City's governmental and business-type activities.

**MANAGEMENT’S DISCUSSION AND ANALYSIS
CITY OF BRUCEVILLE-EDDY, TEXAS
SEPTEMBER 30, 2025**

A large portion of the City’s net position (69%) reflects its investment in capital assets (e.g., land, buildings, infrastructure, machinery and equipment) less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City’s investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City’s net position (5%) represents resources that are subject to external restrictions on how they may be used. The balance of unrestricted net position, \$ 3,063,723, may be used to meet the government’s ongoing obligations to citizens and creditors.

At the end of the fiscal year, the City is able to report positive balances in both categories of net position for the government as a whole.

For the year ended September 30, 2025, revenues from governmental activities totaled \$ 1,352,198. Charges for public safety services accounted for 30% of these revenues and property taxes accounted for 38% of the total.

For the year ended September 30, 2025, expenses for governmental activities totaled \$ 1,380,775. The City’s three largest funded programs are for general government, public safety and streets.

Revenues of the City’s business-type activities were \$ 4,510,597 for the year ended September 30, 2025. Expenses for the City’s business-type activities were \$ 2,155,214. The City’s largest business-type activities expense was the purchase of water.

THE CITY’S FUNDS

As the City completed the year, its governmental funds (as presented in the balance sheet on page 18) reported a fund balance of \$ 2,019,561, which is \$ 1,075,304 lower than last year’s total of \$ 3,094,865.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

As of September 30, 2025, the City had \$ 19,176,808 (net of accumulated depreciation) invested in a broad range of capital assets, including facilities, equipment and land. This amount represents a net increase of \$ 12,323,050 due to current year purchases and contributions being more than depreciation and current year disposals. This year’s major additions included:

Buildings and improvements	\$ 4,551
Water facilities	1,192,725
Machinery and equipment	20,999
Construction in progress	12,622,554
	<u>\$ 13,840,829</u>

**MANAGEMENT'S DISCUSSION AND ANALYSIS
CITY OF BRUCEVILLE-EDDY, TEXAS
SEPTEMBER 30, 2025**

Debt

At year-end, the City had \$ 10,400,000 in bonds and notes outstanding versus \$ 1,434,658 last year. This increase is due to new debt during fiscal year 2025 being more than the principle payments applied to outstanding debt during the year.

More detailed information about the City's long-term liabilities is presented in the Notes to Financial Statements on pages 43 through 45.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The City's elected and appointed officials considered population growth and available resources from water, public safety and tax revenues when setting the fiscal year ending September 30, 2026 budget and tax rate.

The City adopted a \$ 10,166,633 combined budget for fiscal year ending September 30, 2026. It will be funded through property taxes, water and utility charges, and other local revenues.

If the City does not incur any unforeseen expenditures or reductions in revenue, current revenues should cover current expenses with no change in estimated fund balance in the General Fund and no change in the Water Fund or Sewer Fund net position.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the City's business office at City of Bruceville-Eddy, 144 Wilcox Drive, Bruceville-Eddy, Texas 76524.

RECONCILIATION OF THE BALANCE SHEET OF THE GOVERNMENTAL FUNDS
TO THE STATEMENT OF NET POSITION
September 30, 2025

Total Fund Balance - Governmental Funds (Page 18) \$ 2,019,561

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. These assets consist of:

Land	\$ 649,610	
Buildings	325,143	
Equipment	986,475	
Infrastructure	363,885	
Accumulated depreciation	<u>(1,098,784)</u>	
Total capital assets	<u>\$ 1,226,329</u>	1,226,329

Deferred outflows related to pension activity are not required to be reported in the funds but are required to be reported at the government-wide level. 106,006

Deferred outflows related to OPEB activity are not required to be reported in the funds but are required to be reported at the government-wide level. 4,321

Accrued vacation and comp time payable is not due and payable in the current period and therefore is not reported in the funds. (30,429)

Net pension liability is not due and payable in the current period and therefore is not reported in the funds. (13,632)

Net OPEB liability is not due and payable in the current period and therefore is not reported in the funds. (27,202)

Deferred inflows related to pension activity are not required to be reported in the funds but are required to be reported at the government-wide level. (68,439)

Deferred inflows related to OPEB activity are not required to be reported in the funds but are required to be reported at the government-wide level. (7,965)

Delinquent taxes are recognized as revenue in the period for which levied in the Government-Wide financial statements, but are reported as deferred inflows of resources in the fund financial statements. 22,429

Net Position of Governmental Activities (Page 15) \$ 3,230,979

**CITY OF BRUCEVILLE-EDDY, TEXAS
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES AND CHANGES IN FUND BALANCE
TO THE STATEMENT OF ACTIVITIES
For the Year Ended September 30, 2025**

Net Change in Fund Balance - Total Governmental Funds (Page 20) \$ (1,075,304)

Amounts reported for governmental activities in the statement of activities (pages 16-17) are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation expense in the current period.

Capital outlay	\$ 4,551	
Depreciation expense	(130,695)	
	\$(126,144)	(126,144)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Property taxes not collected	\$ 22,429	
Less prior year	(19,571)	
	\$ 2,858	2,858

Some expenses reported in the statement of activities do not require the use of current financial resources. Therefore, they are not reported as expenditures in governmental funds.

Increase in compensated absences liability	\$ (15,737)	
	(15,737)	(15,737)

The net pension liability and related deferred outflows/inflows per GASB 68 is accrued at the government-wide level but not at the fund level. This is the current year change related to the net pension liability and related deferred outflows/inflows, reported as expense in the statement of activities. (62,186)

The OPEB liability and related deferred outflows/inflows per GASB 75 is accrued at the government-wide level but not at the fund level. This is the current year change related to the total OPEB liability and related deferred outflows/inflows, reported as expense in the statement of activities. (2,064)

Change in Net Position of Governmental Activities (Page 17) \$ (1,278,577)

NOTES TO FINANCIAL STATEMENTS

This page is left blank intentionally.

CITY OF BRUCEVILLE-EDDY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. REPORTING ENTITY

The City of Bruceville-Eddy, Texas (the City) was incorporated in 1974 for the purpose of providing public safety, water and sanitation services, planning and general administrative services. The City's present population is approximately 1,454, and it serves approximately 2,106 metered customers.

The following is a summary of certain significant accounting policies followed in the preparation of the financial statements of the City.

In June 1999, the Governmental Accounting Standards Board (GASB) issued Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*. This statement, known as the "Reporting Model" statement, affects the way the City prepares and presents financial information. State and local governments traditionally have used a financial reporting model substantially different from the one used to prepare private-sector financial reports.

GASB Statement No. 34 established new requirements and a new reporting model for the annual financial reports of state and local governments. The Statement was developed to make annual reports easier to understand and more useful to the people who use governmental financial information to make decisions and includes:

Management's Discussion and Analysis - GASB Statement No. 34 requires that financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of a "management's discussion and analysis" (MD&A). This analysis is similar to the analysis the private sector provides in their annual reports.

Government-Wide Financial Statements - The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. Government-wide financial statements do not provide information by fund or account group, but distinguish between the City's governmental activities and business-type activities on the statement of net position and statement of activities. Significantly, the City's statement of net position includes both noncurrent assets and noncurrent liabilities of the City, which were previously recorded in the General Fixed Assets Account Group and the General Long-term Obligations Account Group (such as building and infrastructure, including bridges and roads, and general obligation debt). Accrual accounting also reports all of the revenues and cost of providing services each year, not just those received or paid in the current year or soon thereafter.

In addition, the government-wide statement of activities reflects depreciation expenses on the City's capital assets, including infrastructure. In addition to the government-wide financial statements, the City has prepared governmental fund financial statements, which continue to use the modified accrual basis of accounting and the current financial resources measurement focus. Accordingly, the accounting and financial reporting for the City's General Fund, the City's major governmental fund, is similar to that previously presented in the City's financial statements, although the format of financial statements has been modified by GASB Statement No. 34.

CITY OF BRUCEVILLE-EDDY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025

Statement of Net Position - The Statement of Net Position is designed to display the financial position of the primary government (government and business-type activities). Governments report all capital assets, including infrastructure, in the government-wide Statement of Net Position and report depreciation expense - the cost of “using up” capital assets - in the Statement of Activities. The net position of the government will be broken down into three categories - 1) invested in capital assets, net of related debt; 2) restricted; and 3) unrestricted.

Statement of Activities - The government-wide statement of activities reports expenses and revenues in a format that focuses on the cost of each of the government’s functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

In evaluating the City’s financial reporting entity, management has considered all potential component units. The decision to include a potential component unit was made based on the guidance set forth in GASB Statement No. 61. The component unit discussed below has been included based on this criterion.

The Bruceville-Eddy Economic Development Corporation is included as a component unit because of its operational and financial relationship with the City. The Corporation receives its primary funding from a sales tax assessed by the City, and the city appoints the members of the governing board. The Corporation was created by the City to enhance the economic development of the Bruceville-Eddy community. The Bruceville-Eddy Economic Development Corporation is presented as a discretely presented component unit in the government-wide statement of net position and statement of activities.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements (the statement of net position and the statement of activities) present information of all the non-fiduciary activities of the primary government and its component unit. These statements present summaries of governmental and business-type activities for the City accompanied by a total column.

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the City’s non-fiduciary activities with most of the interfund activities removed. Governmental activities include programs supported primarily by taxes, grants and other intergovernmental revenues. Business-type activities include programs supported primarily by water revenues.

The Statement of Activities demonstrates how other people or entities that participate in programs the City operates have shared in the payment of the direct costs. The “charges for services” column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the City. Examples include water payments, police fines, etc. If revenue is not program revenue, it is general revenue used to support all of the City’s functions. Taxes are always general revenues.

Interfund activities between governmental funds appear as due to/from on the Governmental Fund Balance Sheet. All transactions between governmental funds are eliminated on the government-wide statements.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

CITY OF BRUCEVILLE-EDDY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The City considers all revenues available if they are collectible within 60 days after period end.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the state are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

D. FUND ACCOUNTING

The City reports the following major governmental fund:

General Fund - the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The City reports the following major proprietary funds:

Water Fund and Sewer Fund - used to account for those operations that are financed and operated in a manner similar to private business or where the board has decided that the determination of revenues earned, cost incurred and/or net income is necessary for management accountability.

CITY OF BRUCEVILLE-EDDY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025

Reconciliation of Government-Wide and Fund Financial Statements

A summary reconciliation of the difference between total fund balances as reflected on the governmental funds balance sheet and total net position for governmental activities as shown on the government-wide statement of net position is presented in an accompanying schedule to the governmental funds balance sheet. The asset and liability elements which comprise the reconciliation difference stem from governmental funds using the current financial resources measurement focus and the modified accrual basis of accounting while the government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting. A summary reconciliation of the difference between net changes in fund balances as reflected on the governmental funds statement of revenues, expenditures and changes in fund balances and change in net position for governmental activities as shown on the government-wide statement of activities is presented in an accompanying schedule to the governmental funds statement of revenues, expenditures and changes in fund balances. The revenue and expense elements which comprise the reconciliation difference stem from governmental funds using the current financial resources measurement focus and the modified accrual basis of accounting while the government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting.

In the fund financial statements, governmental funds report restrictions of fund balance for amounts that are not available for appropriation or legally restricted by outside parties for use for a specific purpose. GASB No. 54 requires governmental fund balances to be reported in one of five classifications. These five classifications are non-spendable, restricted, committed, assigned and unassigned.

Non-spendable fund balances are either not in spendable form or are legally required to be maintained intact. Restricted fund balances have constraints imposed either 1) by law through constitutional provisions or enabling legislation or 2) by creditors, grantors, contributors, or laws or regulations of other governments. Committed fund balances represent funds set aside formally by the City Council for specific purposes. Assigned fund balances are earmarked for specific purposes by the City Council, but are neither restricted nor committed. These balances represent tentative management plans that are subject to change. Unassigned fund balance is the residual classification for the general fund for which the previous classifications do not apply. When different classifications of funds are available for expenditure, the City considers the most restrictive classification amount to have been spent first.

The following is a list of fund balance restrictions used by the City and a description of each:

Debt Service- Funds restricted for the retirement of general long-term debt.

Public Safety- Funds restricted from criminal asset forfeiture programs to be used only for the benefit of the police department.

Other:

Court Technology and Building Security- Funds restricted, from specific court fees, for the purchase of goods and services that will benefit the court.

Child Safety- Funds restricted, from specific court fees, to be used to enhance child safety.

Capital Projects- Funds restricted for use in current and future construction projects.

CITY OF BRUCEVILLE-EDDY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025

Customer Deposits- Funds restricted for the application to customer account balances or refunds to customer.

E. ASSETS, LIABILITIES AND NET POSITION

1. Deposits and Investments

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

2. Receivables

Accounts and property tax receivables are shown net of any allowance for uncollectible accounts. Property taxes receivable for the governmental fund types, which have been remitted within sixty days subsequent to year-end, are considered measurable and available and recognized as revenues. All other property taxes are offset by deferred resources and, accordingly, have not been recorded as revenue.

3. Restricted Assets

Restricted assets are liquid assets that have third party (statutory, bond covenant or granting agency) limitations on their use. Certain resources set aside for the repayment of revenue bonds are classified as restricted assets on the Balance Sheet and the Statement of Net Position, because they are maintained in separate bank accounts and their use is limited by applicable bond covenants. Customer deposits held by the City before any services were supplied are restricted to the service for which the deposits were collected. A percentage of fines collected by the City are restricted and their use limited by state statute.

4. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$ 2,000 and an estimated useful life in excess of three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed.

Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

**CITY OF BRUCEVILLE-EDDY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025**

Property, plant and equipment of the primary government are depreciated using the straight-line method over the following estimated useful lives:

Category	Life
Buildings and improvements	10-30 years
Machinery and equipment	3-10 years
Water facilities	30 years
Infrastructure	20 years

5. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Issuance costs are expensed in the period incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

6. Net Position

Net Position in government-wide and proprietary financial statements are classified as net investment in capital assets, restricted and unrestricted. Restricted net position represents constraints on resources that are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through state statute.

7. Fund Balance

The following fund balance classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

Non-spendable Fund Balance - Amounts that are not in a spendable form (such as inventory) or are required to be maintained intact.

Restricted Fund Balance – Amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

Committed Fund Balance – Amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority to be reported as committed; amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.

CITY OF BRUCEVILLE-EDDY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025

Assigned Fund Balance – Amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority.

Unassigned Fund Balance – Amounts that do not meet the criteria above and are available for any purpose; positive amounts are reported in the General Fund.

City Council establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance, the highest level of action. This is typically done through adoption of the budget. A fund balance commitment is further indicated in the budget document as a commitment of the fund. Assigned fund balance is established by City Council by passage of a resolution either through adoption or amendment of the budget as intended for specific purposes.

For the classification of Governmental Fund balances, the City considers expenditures to be made from the most restrictive first when more than one classification is available.

8. Estimates

The preparation of financial statements in conformity with U. S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Specifically, the actuarial calculations used to determine the annual required contributions and related liabilities of the City's retirement plans and post-employment obligations are based on assumptions about the possibility of events far into the future. Accordingly, actual results could differ from those estimates.

9. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense information about the Fiduciary Net Position of the Texas Municipal Retirement System (TMRS) and additions to/deductions from TMRS's Fiduciary Net Position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

10. Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the City of Bruceville-Eddy's Post Employment Health Insurance Plan (the Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the Plan recognizes benefit payments when due and payable, in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan.

CITY OF BRUCEVILLE-EDDY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025

11. Deferred outflows and inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. At this time, the City has two items that qualify for reporting in this category related to the City's pension and OPEB plans through TMRS.

In addition to liabilities, the statement of financial position will sometimes report a separate section for *deferred inflows of resources*. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. At this time, the City has three items that qualify for reporting in this category. They are amounts related to pension and OPEB plans through TMRS and deferred lease income.

F. ADOPTION OF NEW AND FUTURE ACCOUNTING STANDARDS

The GASB has issued the following statements which will become effective in the current year.

Statement No. 101, *Compensated Absences* – This statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. The objective is achieved by aligning the recognition and measurement guidance under a model and by amending certain previously required disclosures. This statement was implemented in fiscal year 2025, which had no impact on beginning of year net position.

The GASB has issued the following statements which will become effective in future years:

Statement No. 103, *Financial Reporting Model Improvements* – This statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. This statement also addresses certain application issues. This statement will be implemented in fiscal year 2026.

Statement No. 104, *Disclosure of Certain Capital Assets* – This statement requires certain type of capital assets to be disclosed separately in the capital assets note disclosures required by Statement 34. Lease assets recognized in accordance with Statement 87, *Leases*, intangible right-to-use assets recognized in accordance with Statement 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, should be disclosed separately by major class of underlying asset in the capital assets note disclosures. Subscription assets recognized in accordance with Statement 96, *Subscription-Based Information Technology Arrangements*, also should be disclosed separately. In addition, this statement requires intangible assets other than those three types to be disclosed separately by major class. This statement will be implemented in fiscal year 2026.

Statement No. 105, *Subsequent Events* - This statement will improve the financial reporting requirements for subsequent events, thereby enhancing consistency in their application and better meeting the information needs of financial statement users. This statement will be implemented in fiscal year 2027.

CITY OF BRUCEVILLE-EDDY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025

II. DETAILED NOTES ON ALL FUNDS

A. DEPOSITS AND INVESTMENTS

Legal and Contractual Provisions Governing Deposits and Investments

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the City to adopt, implement and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit. Statutes authorize the City to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the City to have independent auditors perform test procedures related to investment practices as provided by the Act. The City is in substantial compliance with the requirements of the Act and with local policies.

Additional Contractual Provisions governing deposits and investments are as follows:

The funds of the City must be deposited and invested under the terms of a contract, contents of which are set out in the depository contract law. The depository bank places approved pledged securities for safekeeping and trust with the City's agent bank in an amount sufficient to protect City's funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation (FDIC) insurance.

Policies Governing Deposits and Investments

1. Foreign Currency Risk – The City's deposits and investments are not exposed to foreign currency risk.
2. Custodial Credit Risk – The City's policy is to be collateralized. The City was fully collateralized during the period.
3. Interest Rate Risk – The City has no debt securities that have interest rate risk.
4. Other Credit Risk Exposure – The City does not invest in debt securities.
5. Concentration Risk – The City's deposits and investments are exposed to concentration risk in that they are all deposited with the same bank.

Deposits Credit Risk

The cash deposits and savings accounts held at financial institutions can be categorized according to three levels of risk. These three levels of risk are as follows:

- Category 1 - Deposits, which are insured or collateralized with securities held by the City or by its agent in the City's name.
- Category 2 - Deposits, which are collateralized with securities, held by the pledging financial institution's trust department or agent in the City's name.
- Category 3 - Deposits which are not collateralized or insured.

**CITY OF BRUCEVILLE-EDDY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025**

Based on these three levels of risk, all of the City’s cash deposits are classified as Category 1.

Deposits are stated at cost plus accrued interest and the carrying amounts are displayed on the balance sheet as cash and cash equivalents. Following is a summary of the City’s deposits, by category:

1. Insured by FDIC	\$	795,854
2. Collateralized by pledged securities		3,659,557
3. Uninsured and uncollateralized		-
 Total Bank Balance	 \$	 4,455,411
 Carrying Amount	 \$	 4,244,606

B. RESTRICTED CASH

The City had restricted cash of \$ 156,048 in the General Fund, \$ 427,212 in the Water Fund and \$ 263,312, in the sewer fund as of September 30, 2025. The restrictions stem from the need to protect customer utility deposits, to set aside a reserve for the payment of interest and principal on bonded indebtedness, sewer system construction and to set aside monies that are restricted by revenue sources as to use.

C. RECEIVABLES

Receivables at September 30, 2025 for the government’s individual major funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	General Fund	Water Fund
Tax receivables	\$ 55,843	\$ -
Less: allowance for uncollectible accounts	(33,414)	-
Tax receivable, net	22,429	-
Accounts receivable	-	184,026
Less: allowance for uncollectible accounts	-	(1,452)
 Total Receivables	 \$ 22,429	 \$ 182,574

**CITY OF BRUCEVILLE-EDDY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025**

D. INTERFUND RECEIVABLES AND PAYABLES

Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as internal balances. The individual interfund receivables and payable balances at September 30, 2025, were:

	<u>Due from Other Funds</u>	<u>Due to Other Funds</u>
General Fund	\$ 58,258	\$ -
Water Fund	1,110,362	-
Sewer Fund	-	1,168,620

F. LONG-TERM DEBT

The City's long-term debt at September 30, 2025 is comprised of the following individual issues:

Proprietary Water Fund Revenue Bonds:

\$ 1,883,000 Series 2013 Certificates of Obligation, maturing September 2028; interest rates varying from 3.25% to 4.25%; annual principal payments ranging from \$ 113,000 to \$ 254,000 are due per the bonds' maturity dates schedule. Interest is due each March and September; secured by the revenues of the City's water system. \$ 730,000

\$ 395,000 Series 2015 Certificates of Obligation, maturing September 2030; interest rate at 4.25%; annual principal payments ranging from \$ 35,000 to \$ 41,000 are due per the bonds' maturity dates schedule. Interest is due each March and September; secured by the revenues of the City's water system. 195,000

Proprietary Sewer Fund Revenue Bonds:

\$ 5,861,000 Series 20204A Certificates of Obligation, maturing September 2064; one certificate with interest rate of 2.6250%; annual principal payments are due per the bonds' maturity dates schedule starting in 2027. Interest is due each March and September; secured by the revenues of the City's sewer system. 5,861,000

\$ 3,614,000 Series 20204B Certificates of Obligation, maturing September 2064; one certificate with interest rate of 2.7500%; annual principal payments are due per the bonds' maturity dates schedule starting in 2027. Interest is due each March and September; secured by the revenues of the City's sewer system. 3,614,000

Total Proprietary Long-Term Debt 10,400,000

Less Current Portion (270,000)

Total Long-Term Debt \$ 10,130,000

**CITY OF BRUCEVILLE-EDDY, TEXAS

CITY OF BRUCEVILLE-EDDY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025

There are a number of limitations and restrictions contained in the various bond indentures including, among others, the requirements of the payment of principal and interest from the ad valorem tax levy or from the net revenues of the water fund and the provision of certain reserve funds. The City is in compliance with all such significant financial limitations and restrictions. There is no specific maximum debt limit established by law for the City, therefore, the limit is governed by the City's ability to levy and collect taxes to service the debt.

Changes in long-term liabilities

Long-term liability activity for the year ended September 30, 2025 was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due within One Year
Governmental Activities:					
Compensated absences	\$ 14,692	\$ 15,737	\$ -	\$ 30,429	\$ -
Pension liability	-	13,632	-	13,632	-
OPEB liability	24,367	2,835	-	27,202	-
Governmental Activity Long-Term Liabilities	<u>\$ 39,059</u>	<u>\$ 32,204</u>	<u>\$ -</u>	<u>\$ 71,263</u>	<u>\$ -</u>
Business-Type Activities:					
Revenue Bonds Payable	\$ 1,331,000	\$ 9,328,000	\$ (259,000)	\$ 10,400,000	\$ 270,000
Notes Payable	103,658	-	(103,658)	-	-
Compensated absences	12,868	6,036	-	18,904	-
Pension liability	-	8,123	-	8,123	-
OPEB liability	18,383	-	(2,173)	16,210	-
Business-Type Activity Long-Term Liabilities	<u>\$ 1,465,909</u>	<u>\$ 9,342,159</u>	<u>\$ (364,831)</u>	<u>\$ 10,443,237</u>	<u>\$ 270,000</u>

G. PROPERTY TAXES

The appraisal of property within the City is the responsibility of the McLennan County Appraisal District (the District). The District is required under the Property Tax Code to assess all property within the District on the basis of 100% of its appraised value and is prohibited from applying any assessment ratios. The value of property within the District must be reviewed every four years.

The City's property tax is levied each October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the City. The net assessed value, net of exemptions, upon which the fiscal year ended September 30, 2025, levy was based was \$ 109,251,310. The tax rate for the 2025 tax roll was \$ 0.46 per \$ 100 of assessed value.

Property taxes not collected in the current period are considered not to be available, and therefore, are not accrued as revenue in the current period. Since the City recognizes taxes as revenues only when collected, an allowance for current and delinquent taxes receivable at the end of the period has been established. On the government-wide statements, the amount deferred in the fund statements is recognized as revenue.

**CITY OF BRUCEVILLE-EDDY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025**

The City has contracted with McLennan County tax collector’s office to collect ad valorem taxes on behalf of the City. The City paid the tax collector \$ 2,235 for these services during the fiscal year ended September 30, 2025.

H. EMPLOYEE RETIREMENT PLAN

Plan Description

The City participates as one of more than nine hundred plans in the defined benefit cash-balance plan administered by the Texas Municipal Retirement System (TMRS). TMRS is a statewide public retirement plan created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for employees of Texas participating cities. The TMRS Act places the general administration and management of TMRS with a six-member, Governor-appointed Board of Trustees; however, TMRS is not fiscally dependent on the State of Texas. TMRS issues a publicly available annual comprehensive financial report that can be obtained at www.tmr.com.

All eligible employees of the City are required to participate in TMRS.

Benefits Provided

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the City, within the options available in the state statutes government TMRS.

At retirement, the employee’s benefit is calculated based on the sum of the employee’s contributions, with interest, and the city-financed monetary credits with interest. The retiring employee may select one of seven monthly benefit payment options. Employees may also choose to receive a portion of their benefit as a lump sum distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the total employee contributions and interest.

A summary of plan provisions for the City are as follows:

Employee deposit rate	7.00%
Matching ratio (city to employee)	1.5 to 1
Years required for vesting	5
Retirement eligibility	20 years
Updated service credit	100% Repeating Transfers
COLA	30%; Non-Retroactive
Supplemental death benefit to active employees	Yes
Supplemental death benefit to retirees	Yes

**CITY OF BRUCEVILLE-EDDY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025**

Employees Covered by Benefit Terms.

At the December 31, 2024 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	8	
Inactive employees entitled to but not yet receiving benefits	29	
Active employees	15	
Total	52	

Contributions

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee total compensation and the city matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the city. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The City's contribution rate is based on the liabilities created from the benefit plan options selected by the City and any changes in benefits or actual experience over time.

Employees for the City were required to contribute 7% of their annual compensation during the fiscal year. The contribution rates for the City were 7.58% and 5.76% in calendar years 2025 and 2024, respectively. Accordingly, contributions to TMRS for the fiscal year ended September 30, 2025, were \$ 50,105 and were equal to the required contributions.

Net Pension Liability (Asset)

The City's Net Pension Liability (Asset) was measured as of December 31, 2024, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability (Asset) was determined by an actuarial valuation as of that date.

Actuarial Assumptions:

The Total Pension Liability in the December 31, 2024 actuarial valuation was determined using the following actuarial assumptions.

Inflation	2.50% per year	
Overall payroll growth	3.60% to 11.85% per year, adjusted down for population declines, if any	
Investment rate of return	6.75%, net of pension plan investment expense, including inflation	

**CITY OF BRUCEVILLE-EDDY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025**

Salary increases are based on a service-related table. Mortality rates for active members are based on the PUB (10) mortality tables with 110% of the Public Safety table used for males and 100% of the General Employee table used for females. Mortality rates for healthy retirees and beneficiaries are based on the Gender-distinct 2019 Municipal Retirees of Texas mortality tables. Male rates are multiplied by 103% and female rates are multiplied by 105%. The rates for active, healthy retirees and beneficiaries are projected on a fully generational basis by the most recent Scale MP-2021 to account for future mortality improvements. For disabled annuitant, the same mortality tables for healthy retirees is used with a 4-year set-forward for males and a 3-year set-forward for females. In addition, a 3.5% and 3.0% minimum mortality rate is applied, for males and females respectively, to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by the most recent Scale MP-2021 to account for future mortality improvements subject to the 3% floor.

The actuarial assumptions were developed primarily from the actuarial investigation of experience of TMRS over the four-year period from December 31, 2018 to December 31, 2022. The assumptions were adopted in 2023 and first used in the December 31, 2023 actuarial valuation. The post-retirement mortality assumption for Annuity Purchase Rates (APRs) is based on the Mortality Experience Investigation Study covering 2009 through 2011 and dated December 31, 2013. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined by best estimate ranges of expected returns for each major asset class. The long-term expected rate of return is determined by weighting the expected return for each major asset class by the respective target asset allocation percentage. The target allocation and best estimates of the expected return for each major asset class in fiscal year 2025 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return (Arithmetic)
Global Equity	35.0%	7.10%
Core Fixed Income	6.0%	5.00%
Non-Core Fixed Income	6.0%	6.80%
Hedge Funds	5.0%	6.40%
Private Equity	13.0%	8.50%
Private Debt	13.0%	8.20%
Real Estate	12.0%	6.70%
Infrastructure	6.0%	6.00%
Other Private Markets	4.0%	7.30%
Total	100.0%	

**CITY OF BRUCEVILLE-EDDY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025**

Discount Rate

The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employees and employer contributions would be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

Changes in the Net Pension Liability (Asset)

	Increase (Decrease)		
	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability (Asset)
	(a)	(b)	(a) - (b)

Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate

The following presents the net pension liability of the City, calculated using the discount rate of 6.75% as well as what the City's net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75%) or 1-percentage-point higher (7.75%) than the current rate:

	Current Single Rate		
	1% Decrease	Assumption	1% Increase
	5.75%	6.75%	7.75%
City's net pension liability (asset)	\$ 330,690	\$ 21,755	\$ (228,009)

**CITY OF BRUCEVILLE-EDDY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025**

Pension Plan Fiduciary Net Position

Detailed information about the pension plan’s Fiduciary Net Position is available in the Schedule of Changes in Fiduciary Net Position, by Participating City. That report may be obtained at *trms.com*.

Pension Expense (Income) and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended September 30, 2025 the City recognized pension expense of \$ 162,760. At September 30, 2025 the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 38,620	\$ -
Changes in actuarial assumptions	-	430
Difference between projected and actual investment earnings	88,858	108,790
Sub-total	127,478	109,220
Contributions subsequent to the measurement date	41,696	-
Total	\$ 169,174	\$ 109,220

A total of \$ 41,696 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability for the year ending September 30, 2026.

Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Measurement Year Ended December 31,	Net Deferred Outflows (Inflows) of Resources
2025	\$ 21,410
2026	33,637
2027	(24,620)
2028	(12,169)
2029	-
Thereafter	-
Total	\$ 18,258

NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025**

I. SUPPLEMENTAL DEATH BENEFITS FUND

Plan Description

The City also participates in the cost sharing multiple-employer defined benefit group-term life insurance plan operated by TMRS known as the Supplemental Death Benefits Fund (SDBF). The City elected, by ordinance, to provide group-term life insurance coverage to both current and retired employees. The City may terminate coverage under and discontinue participation in this fund by adopting an ordinance before November 1, or any year to be effective the following January 1. The SDBF does not meet the definition of a trust under GASB No. 75 since it does not accumulate assets in a trust, and as such is considered to be a single-employer unfunded OPEB plan.

Benefit Providers

The death benefit for active employees provides a lump-sum payment approximately equal to the employee’s annual salary (calculated based on the employee’s actual earnings, for the 12-month period preceding the month of death); retired employees are insured for \$ 7,500; this coverage is an “other post-employment benefit,” or OPEB. The City offers supplemental death benefits to both active employees and retirees for plan years 2025 and 2024.

Employees Covered by Benefit Terms

At the December 31, 2024 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees currently receiving benefits	6
Inactive employees entitled to but not yet receiving benefits	4
Active employees	15
Total	<hr style="width: 20%; margin-left: auto; margin-right: 0;"/> 25

Contributions

The City contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation, which was 0.36% for 2025 and 0.39% for 2024, of which 0.26% and 0.23%, respectively, represented the retiree-only portion, as a percentage of annual covered payroll. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to prefund retiree term life insurance during employees’ entire careers. The City’s contributions to the SDBF for the years ended September 30, 2025 and 2024 were \$ 2,735 and \$ 3,143, respectively, representing contributions for both active and retiree coverage, which equaled the required contributions each year.

**CITY OF BRUCEVILLE-EDDY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025**

Total Other Post Employment Benefits Liability

Actuarial Assumptions

Actuarial assumptions were developed from the actuarial investigation of the experience of TMRS as of December 31, 2023. These assumptions were adopted in 2024 and first used in the December 31, 2024 valuation.

All administrative expenses are paid through the Pension Trust and accounted for under reporting requirements under GASB Statement No. 68.

For calculating the OPEB liability and the OPEB contribution rates, the mortality tables for healthy retirees are used with a 4-year set-forward for males and a 3-year set-forward for females. In addition, a 3.5% and 3% minimum mortality rate will be applied to reflect the impairment for younger members who become disabled for males and females, respectively. The rates are projected on a fully generational basis by the most recent Scale MP-2021 (with immediate convergence) to account for future mortality improvements subject to the 3.5% and 3% floor.

Inflation	2.50% per year
Overall payroll growth	3.60% to 11.85% including inflation
Discount rate	4.08%

Changes in the Total Other Post Employment Benefits Liability

	Increase (Decrease)
	Total OPEB Liability
Balance at December 31, 2023	\$ 42,750

Service cost	1,678
Interest on Total OPEB Liability	1,610
Changes of benefit terms	-
Difference between expected and actual experience	1,096
Changes of assumptions	(1,968)
Benefit payments	(1,754)
Net changes	662
Balance at December 31, 2024	\$ 43,412

**CITY OF BRUCEVILLE-EDDY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025**

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB liability of the City, calculated using the current discount rate of 4.08% as well as what the City’s total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.08%) or 1-percentage-point higher (5.08%) than the current rate. Because the SDBF is considered an unfunded trust, the relevant discount rate to calculate the total OPEB liability is based on the Fidelity’s Index’s “20-Year Municipal GO AA Index”.

	1% Decrease 3.08%	Current Discount Rate 4.08%	1% Increase 5.08%
Total OPEB liability	\$ 50,344	\$ 43,412	\$ 37,860

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended September 30, 2025, the City recognized OPEB expense of \$ 607. At September 30, 2025 the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences in actual vs assumption	\$ 1,708	\$ 3,467
Changes in assumptions and other inputs	3,758	9,245
Contributions subsequent to the measurement date	1,430	-
Total	\$ 6,896	\$ 12,712

Deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date of \$ 1,430 will be recognized as a reduction of the total OPEB liability for the measurement year ending December 31, 2025 (i.e., recognized in the City’s financial statement September 30, 2026). Other amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Measurement Year Ended December 31,	Net Deferred Outflows (Inflows) of Resources
2025	\$ (2,511)
2026	(3,993)
2027	(1,026)
2028	296

Thereafter	(74)
Total	\$ (7,246)

CITY OF BRUCEVILLE-EDDY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025

J. COMMITMENTS AND CONTINGENCIES

Water Purchase Agreement

The City has entered into a long-term agreement to purchase water from a water supply company. The contract requires the City to take and/or pay for a minimum quantity of water. The cost of water per gallon is based each year on the amount the water supply corporation needs to recover all operation and maintenance expenses and debt service of the system (i.e., its annual requirement). The water supply company's net annual requirement divided by all contracting parties' minimum take (annual water purchases in gallons) determines the rate per gallon each year. Based on the estimated annual requirements of the water supply company (estimated \$ 3.50 per thousand gallons) and the minimum take (13,203,000 gallons) for the City; the City is committed to pay an estimated monthly amount of \$ 46,211 for water during the fiscal year ending September 30, 2026, under this contract.

K. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City has joined other governments in Texas to form the Texas Municipal League Intergovernmental Risk Pool, a public entity risk pool currently operating as a common risk management and insurance program for liability, property and workers' compensation coverage. The City pays a quarterly contribution to the pool for its insurance coverage. The agreement for formation of the Texas Municipal League Intergovernmental Risk Pool provides the Pool will be self-sustaining through member contributions and will reinsure through commercial companies for claims in excess of specific limits.

The Texas Municipal League Intergovernmental Risk Pool has published its own financial report, which can be obtained by writing to the Texas Municipal League Intergovernmental Risk Pool, 1821 Rutherford Lane, Austin, Texas 78754.

L. COMPENSATED ABSENCES

The City recognizes a liability for compensated absences for leave time that (1) has been earned for services previously rendered by employees, (2) accumulates and is allowed to be carried over to subsequent years, and (3) is more likely than not to be used as time off or settled (paid in cash to the employee) during or upon separation from employment. Based on the criteria listed, four types of leave qualify for liability recognition for compensated absences – vacation, sick leave, compensatory time and police department holiday. The liability for compensated absences is reported as incurred in government-wide and proprietary fund financial statements. A liability for compensated absences is recorded in the governmental funds only if the liability has matured because of employee resignations or retirements. The liability for compensated absences includes salary-related benefits, where applicable.

CITY OF BRUCEVILLE-EDDY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025

Employees accrue vacation leave based on the number of years employed up to a maximum of 20 days per year. Employees accrue vacation annually on the date of their anniversary with the City, and on that date any unused vacation time from the pervious year rolls into personal vacation up to 80 hours. Compensatory time is earned on an employee-by-employee basis and is earned if overtime was worked which will be given as compensatory time rather than overtime payment. Compensatory time can be accrued up the 40 hours and a max of 40 hours is allowed to carry over. Police department holiday is earned in the event that an officer works on a holiday, this time is given as police holiday time to be used at a later date. Police department holiday can be carried over up to 40 hours. Sick leave benefits are earned at a rate of 40 hours per year. Sick leave accumulates up to six weeks. In the event of termination, employees are reimbursed for all accumulated vacation days, however personal vacation is not reimbursed. All compensatory time an employee has remaining in the event of termination is reimbursed. Police department holiday is not reimbursed in the event of termination. Reimbursement is not made for accrued sick leave in the event of termination.

M. EXTRAORDINARY ITEM

During the year ended September 30, 2025, the City entered into litigation with Black Rock Construction regarding delays in the construction of the new sewer system. As a result of the litigation, the City paid out legal settlement of \$1,250,000. The settlement was paid out of the general fund, and no payment is outstanding at September 30, 2025.

N. SUBSEQUENT EVENTS

Management has reviewed and evaluated subsequent events through February 27, 2026, the date of the independent auditor's report.

This page is left blank intentionally.

Notes to Schedule of Contributions

Valuation Date: Actuarially determined contribution rates are calculated as of December 31 and become effective in January 13 months later.

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Percentage of Payroll, Closed
Remaining Amortization Period	20 Years (longest amortization ladder)
Asset Valuation Method	10 year smoothed market; 12% soft corridor
Inflation	2.50%
Salary Increases	3.60% to 11.85% including inflation
Investment Rate of Return	6.75%
Retirement Age	Experience-based table of rates that vary by age. Last updated for the 2023 valuation pursuant to an experience study of the period ending 2022.
Mortality	Post-retirement: 2019 Municipal Retirees of Texas Mortality Tables. Male rates are multiplied by 103% and female rates are multiplied by 105%. The rates are projected on a fully generational basis by the most recent Scale MP-2021 (with immediate convergence). Pre-retirement: PUB(10) mortality tables, with the 110% of the Public Safety table used for males and the 100% of the General Employee table used for females. The rates are projected on a fully generational basis by the most recent Scale MP-2021 (with immediate convergence).

Other Information:

Notes Adopted 30% non-retroactive repeating COLA.

See independent auditor's report.

Net OPEB Liability as a Percentage of Covered Employee Payroll	7.31%	6.51%	8.76%	11.04%	11.86%	6.65%	6.12%	5.89%

Notes to Schedule:

This schedule is intended to present information for ten years. However, information prior to 2017 is not available.

Other Information:

Due to the SDBF being considered an unfunded OPEB plan, benefit payments are treated as being equal to the employer's yearly contributions for retirees.

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75 to pay related benefits.

In order to determine the retiree portion of the City's Supplemental Death Benefit Plan contributions (that which is considered OPEB), the City should perform the following calculation:

$$\text{Total covered payroll} \times \text{Retiree Portion of SDB Contribution (Rate)}$$

See independent auditor's report.

CITY OF BRUCEVILLE-EDDY, TEXAS
NOTES TO REQUIRED BUDGETARY INFORMATION
SEPTEMBER 30, 2025

A. BUDGETARY DATA

The City adopts its annual budget on a basis consistent with accounting principles generally accepted in the United States of America (GAAP basis) for the General Fund. The Water Fund budget is prepared on a basis (budget basis) which differs from GAAP basis. All annual appropriations lapse at fiscal year-end. The appropriated budget is prepared by fund and function. The legal level of budgetary control is the fund level.

1. The City follows these procedures in establishing the budgetary data reflected in the financial statements:
 - b. Prior to the beginning of each fiscal year, the Mayor submits to the City Council a proposed budget for the fiscal year beginning on the following October 1. The operating budget includes proposed expenditures and the means of financing those expenditures.
 - b. Public hearings are conducted at which all interested persons' comments concerning the budget are heard.
 - c. The City Council legally enacts the budget.
 - d. Budget revisions may be made during the period.

B. EXCESS OF EXPENDITURES OVER APPROPRIATIONS

The City over-expended its budget as follows:

<u>General Fund</u>	
Operating costs	\$ 82
Repairs and Maintenance	627

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Honorable Mayor and
Members of the City Council
City of Bruceville-Eddy, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and aggregate remaining fund information of the City, as of and for the year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated February 27, 2026.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items 2025-003 to be material weaknesses.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items 2025-001 and 2025-002 to be significant deficiencies.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*
(CONTINUED)**

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as items 2025-001, 2025-002 and 2025-003.

City of Bruceville-Eddy's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the City's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The City's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR’S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Honorable Mayor and
Members of the City Council
City of Bruceville-Eddy, Texas

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited City of Bruceville-Eddy, Texas’s compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the City’s major federal programs for the year ended September 30, 2025. The City’s major federal programs are identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs.

In our opinion, the City complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2025.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor’s Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the City’s compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the City’s federal programs.

**INDEPENDENT AUDITOR’S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE
(CONTINUED)**

Auditor’s Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City’s compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City’s compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City’s compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the City’s internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the City’s internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2025-002 and 2025-003. Our opinion on each major federal program is not modified with respect to these matters.

**INDEPENDENT AUDITOR’S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE
(CONTINUED)**

Government Auditing Standards requires the auditor to perform limited procedures on the City’s response to the noncompliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. The City’s response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditor’s Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2025-003 to be material weakness.

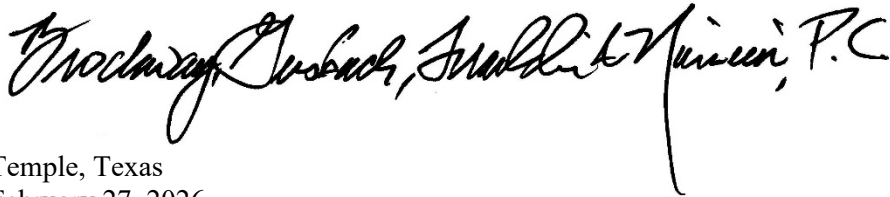

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2025-002 to be significant deficiencies.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on the City’s response to the internal control over compliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. The City’s response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE
(CONTINUED)**

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

A handwritten signature in black ink, reading "Brockway Busch, CPA". The signature is written in a cursive style with a long, sweeping tail on the "B" and "C".

The accompanying notes are an integral part of this schedule

CITY OF BRUCEVILLE-EDDY, TEXAS
SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
For the Year Ended September 30, 2025

Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal financial assistance programs of the City of Bruceville-Eddy, Texas. The City’s reporting entity is defined in Note I to the City’s financial statements. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Because the schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net position, or cash flows of the City. Federal financial assistance received directly from federal agencies as well as federal financial assistance passed through other government agencies is included on the schedule.

Summary of Significant Accounting Policies

The accompanying schedule of federal and state financial assistance is presented using the modified accrual basis of accounting, which is described in Note I to the City’s financial statements. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

Indirect Cost Rate

The City has elected not to use the 10% de minimis indirect cost rate allowed under Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*.

Loans

In addition to federal awards involving expenditures in 2025, the City has loans in the form of bonds outstanding as of September 30, 2025 with the United States Department of Agriculture. The bonds are related to the Water and Waste Disposal Systems for Rural Communities Program (ALN 10.760).

The remaining balances of the bonds at September 30, 2025, are as follows:

Series 2024A	\$ 5,861,000
Series 2024B	3,614,000
Total	<u>\$ 9,475,000</u>

**CITY OF BRUCEVILLE-EDDY, TEXAS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
For the Year Ended September 30, 2025**

CITY OF BRUCEVILLE-EDDY, TEXAS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
For the Year Ended September 30, 2025

Section II – Financial Statement Findings:

Finding 2025-001:

<u>Condition:</u>	At the end of the fiscal year under audit the funds held in the sewer fund interest and sinking account did not meet the balance requirements under section 7(d) of Ordinance No. O 6-17-2024-1, and the account was under funded by approximately \$442,736.
<u>Criteria:</u>	Requirements under section 7(d) of Ordinance No. O 6-17-2024-1 authorizing the issuance of a Texas combination tax and revenue certificate of obligation with the United States Department of Agriculture.
<u>Cause of Condition:</u>	Funds were not deposited or transferred into the Revenue bond 2024 interest and sinking account to meet the balance requirements.
<u>Effect of Condition:</u>	Effect is a state of material non-compliance with the established debt covenants.
<u>Recommendation:</u>	Deposit or transfer funds from system revenues or ad valorem taxes into the designated interest and sinking account in order to bring the balance of the account into compliance with the debt covenant.

CITY OF BRUCEVILLE-EDDY, TEXAS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
For the Year Ended September 30, 2025

Section III – Federal Award Findings and Questioned Costs:

Finding 2025-002:

Federal Agency: United States Department of Agriculture
Federal Program Title: Water and Waste Disposal Systems for Rural Communities
ALN: 10.760
Grant Period: Year ended September 30, 2025

Condition: The City has not adopted written policies or procedures regarding the determination of allowable costs in accordance with Uniform Guidance.

Criteria: CFR 200.302(b)(7)

Cause of Condition: Unfamiliarity with requirements stated in 2 CFR 200 of Uniform Guidance.

Effect of Condition: Effect is a state of non-compliance which may impact future grant awards or failure to identify and reject un-allowed costs charged to grant programs.

Recommendation: Adopt policies and procedures to become compliant with Uniform Guidance.

CITY OF BRUCEVILLE-EDDY, TEXAS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
For the Year Ended September 30, 2025

Finding 2025-003:

Federal Agency: United States Department of Agriculture
Federal Program Title: Water and Waste Disposal Systems for Rural Communities
ALN: 10.760
Grant Period: Year ended September 30, 2025

Condition: The City has not adopted procedures (controls) to ensure compliance with 2 CFR 200 regarding the preparation and completion of the schedule of expenditures of federal awards and the accompanying notes and disclosures required by Uniform Guidance.

Criteria: 2 CFR 200.510(b)

Cause of Condition: Unfamiliarity with requirements stated in 2 CFR 200 of Uniform Guidance.

Effect of Condition: Effect is potential errors in reporting and preparation of the schedule of expenditures of federal awards which could cause non-compliance with 2 CFR 200.

Recommendation: Adopt and implement procedures (controls) to become compliant with Uniform Guidance.

The City of Bruceville-Eddy Rising into the Future

Phone: (254) 859-5964
Fax: (254) 859-5779

3/20/26

Per the recommendation for bringing the sewer fund interest and sinking account balance to the required approximate amount of \$442,736 in relation to section 7(d) of Ordinance No. O 6-17-2024-1, the City has already implemented a plan of action by making quarterly deposits of \$75,000 into the I&S account until its balance equals the required amount. The first payment was deposited in December 2025, and the next payment will take place in March of this year. We anticipate the final payment to the I&S account to take place in March 2027 and bring us into compliance with the cited regulation.

Per the recommendation to adopt procedures to ensure compliance with 2 CFR 200.510(b) regarding the preparation and completion of the schedule of expenditures of federal awards and accompanying notes, the City demonstrates compliance through the reporting requirements of each funding agency via their specific submittal forms and platforms. However, the City's Finance Director will review 2 CFR 200.510(b) and implement a schedule of expenditures on an annual basis, and will prepare the schedule of expenses of federal awards within the guidelines. This action has already been resolved.

Per the recommendation to adopt a procedure to determine the allowability of cost per 2 CFR 200.302(b)(7), our existing financial management policy covers the allowable cost principles in various sections within the policy. However, we will add in a section to our policy per the federal rule giving a procedure on documenting and determining if specific costs are allowable or not and in conformance. This action should be resolved before October 31st.

Lawrence Cutrone
City Administrator

Esther Moreno
Finance Director
